BUSINESS CHANGE & PROJECTS

A member of the Railway Industry Association and RISQS verified supplier, AARC Professional Services provides support across the complete spectrum of business change activity and with a deep understanding of project lifecycles, from pre-feasibility and bid management through to implementation and project close-out.

Drawing from over five decades of industry experience, we have a comprehensive understanding of Business Change & Projects, with a specific focus on:

**CHANGE
MANAGEMENT**

**PROGRAMME / PROJECT
MANAGEMENT**

**BID
MANAGEMENT**

All of our consultants share a common goal to bring out the best in our rail industry clients, through a professional, collaborative and friendly though determined approach.

From benefits evaluation, business case support, bid preparation and tender evaluation through to stakeholder/communications management, project governance and requirements management, we have the experience and expertise to support all of your Business Change & Projects requirements.

What our clients' think...

AARCPS was engaged by Transport for London subsidiary Rail for London Infrastructure (RfLI) to independently assess its maintenance business readiness when it was appointed to take on the role of Elizabeth Line Infrastructure Manager. Initially tasked with producing a report on each maintenance business areas' readiness, the assignment was extended to support Crossrail's hand-over of stations, portals and rail wide systems, by assuring the necessary information and training was sufficient to enable the maintainer to mobilise.

“

AARCPS didn't just provide support - they led, shaped, improved and drove the production, ensuring that all agencies had the opportunity to input and comment, whilst offering solutions and fixes.

”
